COUNTRY COUNSELLING SERVICES

Currently, services at country counselling services (CCS) performed by students are charged at a lower fee to clients. In exchange for the fee CCS's charges clients, supervision is provided to the student. In other words, CCS does not provide any funding or financial assistance to students, and in exchange, provides supervision to students without charge. Do you have any questions or concerns about this?

Country Counselling Services very much enjoys providing supervision to practicum students! We are honoured that you chose to apply to our site for potential placement. Unfortunately, we often receive more requests than what we have spaces for. Due to how busy our office is, we will only reach out to applicants who we are offering interviews to. You can expect to hear back within 1-2 weeks upon submission of your application if you are selected to move forward to an interview. Again, we thank you for your interest!

Please email your completed application to Owner/Therapist/Supervisor:
